Editor and Publisher

### A POSTMASTER'S NIGHTMARE

Your life may be full of ups and  
downs, woe and depression, but  
one life is full of bliss. Bliss here  
and there. There ought to be a  
law, but we have too many now to

obey them, and even if we did I doubt  
if it would help.

There are four brothers living here—  
George Bluto, John Bluto, Andy Bluto  
and Mike Bluto. I don't know where  
they come from, but you can take my  
word for it they are here to stay. They  
are all married to girls named Mary.  
We got a letter addressed to Mrs. Mary  
Bluto. No box number or identifica-  
tion. George's Mary, John's Mary,  
Andy's Mary or Mike's Mary? We  
settled the matter by putting it in  
the wrong box. It was for John's Mary  
and we put it in Mike's box. That is  
settled. We are happy again for a  
while.

Life has been more than kind to  
these boys. They have all been blessed  
with children. To say they are blessed  
is good, but what about us? We are  
already near collapse keeping track  
of the Marys, but when they begin  
naming their boys and girls all the  
time we gave up. George has named  
his son George, Jr., Andy and Mike.  
His daughter he named Mary. Can  
you imagine what happened? It did.  
John named his son John, Jr. and  
George, Andy's sons have been named  
Andy Jr., George, John and Mike. The  
blot, a little girl, has been named  
Mary, for her mother and Aunt Mary.  
Mike's sons are Mike Jr., and John.  
His daughter is Mary.

Old John's son, John Jr. has mar-

ried a girl named Mary. We have done  
our best, but these boys, like their  
fathers, have decided upon Mary for  
a name. The only thing we have in  
the way to have them name their children  
something simple, like Henry or Pat-  
rick. Their girls could be Lillian or  
Olivia, anything but Mary. We have  
Cousin John, Uncle John, Brother John  
and Johnny. We have Mike on the hill,  
and Mike in the valley. We have Andy  
on the east side and Andy on the west  
side. Little Mary and Big Mary. We  
once received an invitation to a party  
called "The Marys". Then we went to  
the wrong Mary's.

Cousin Andy has a girl, she writes  
him letters. We put one in Uncle  
Andy's box. Aunt Mary read it. Think-  
ing it belonged to Uncle Andy, she  
went right after him. It took some of  
the best pointing you ever saw on his  
part and all the diplomacy of which  
this branch of the Government can  
boast to avoid trouble. At that we just  
escaped being a witness to a murder.  
That girl can surely write a mean let-  
ter.

—Catherine A. Wampler.

### ANSWERS TO AUTOMOBILE CONTEST

1. A famous explorer (Hudson)
2. To puncture an Indian weapon  
(Pierce Arrow)
3. To travel, not by sea (Overland)
4. A shallow crossing (Ford)
5. A lovers delight (Moon)
6. What a street can't do (Dodge)
7. Bill's night out (Willy's Knight)
8. A heavenly body (Star)
9. A famous river in Palestine  
(Jordan)
10. Two letters of the Alphabet  
(ESSEX R.V.)
11. A drunken bread man (Steinbucker)
12. An antiquated method of correc-  
ting a child (Whipped)
13. A Scotch lad, Not ill (Maxwell)
14. A famous chief of Mohicans  
(Pontiac)

Let's swim the sea of life together.  
Your charms I can't resist.  
She early dropped her eyes and  
murmured

You're on my wading list.

—  
Traffic Clerk (examining applicant for  
driver's license) What is a one-  
way street? M  
Whispering: It's a street on which a  
motorist is bumped from the rear only.

Hubby—Darling, I'm so glad. And to  
think you kept it a secret.  
Wife—Don't be silly. This is a new  
seat cover for our Austin car.

Clem—Why do they call a sailboat  
"she"?  
Alex—Because it makes its best  
showing in the wind.

### GOOD ADVICE

Early to bed, early to rise,  
Cut the weeds and rent the fies;  
Mind your own business.  
And tell no lies.  
Don't get gay and fool your wife.  
Pay your debts—use enterprise.  
Buy from those who advertise.  
(Enterprise, Bolton, Ontario)

## HERE'S THE BEST Lower Priced TIRE The ROADCRAFT

(MADE BY GUTTA PERCHA)

"All day long I'm working on tires—I know them  
all. And I say that even if it didn't have Gum  
Cushions, the ROADCRAFT TIRE would be as  
good a buy as any ordinary tire. And with Gum  
Cushions to protect the cord fabric, plus the  
Roadcraft Tread, it is by far the best value for the  
money on the market."  
Go to your nearest Gutta Percha Tire dealer—  
ask him to tell you about these remarkable tires—  
find out for yourself how cushions of pure  
gum rubber are built in between the layers of  
cord fabric, and how they absorb the shocks that  
cause ordinary tires to fail. See for yourself why  
the lower-priced ROADCRAFT TIRE—built by  
Gutta Percha—will give you more mileage, better  
satisfaction, greater value for your money from  
the first day on.

### STRONGER, SAFER CONSTRUCTION

GUM  
CUSHIONS  
As Extra  
Value

ROADCRAFT  
Tires have  
Cushions of  
pure gum rub-  
ber moulded in  
between the  
plies of cord  
fabric, making  
flexion and wear  
at these points as effectively as ball  
bearings do in machinery.

"flexion" that reduces  
friction and wear  
at these points as effectively as ball  
bearings do in machinery.

### GREATER MILEAGE, MORE VALUE

### GUARANTEE

Roadcraft and Gutta Percha Tires are sold with a  
one-year, 10,000 mile guarantee. Date of purchase  
for passenger car service; against any condition that  
may develop due to tire wear or failure under normal  
conditions. This is an industry-wide guarantee, and  
it is not voided by excessive wear and tear, or  
by any other cause except by misuse, such as driving  
on curbs, potholes, or over other hard objects.

# Says Capitalist Nations Should Pool All Scientific Knowledge To Meet Soviet Trade Challenge

Warning that scientific knowledge must pool all scientific knowledge and trade secrets to meet the "challenge of Soviet Russia's industrial system and unemployment" was voiced before the American Association for the Advancement of Science.

Only by this means could the nations that now are in the lead industrially maintain this lead, said Dr. A. P. Fleming, engineer of the Metropolitan-Vickers Electrical Company of England, one of the 30 foreign scientists invited to speak before the summer meeting of the association.

"There is in the U.S.S.R.," he said, "a larger body of organized research workers under unified control than exists in any other individual country in the world. The Soviet government looks to science by a much more important part in its industrial and economic activities."

"Whether the Soviet plans succeed or fail, already enough has been accomplished to show the possibilities of this combined scientific effort. Even partial success may have far-reaching effects on the rest of the industrial world."

This situation is developing at a time when there is little industrial co-operation between the other countries and there is no doubt that the challenges of a communal to a competitive plan justify a careful consideration of the advantages of further co-operation especially in the matter of pooling of scientific resources and experience.

"With the lead that the foreign manufacturing countries jointly possess and with the fullest use made of their joint scientific research it should be possible to meet the challenge successfully."

## Navigates Her Own Craft

Twenty-One-Year-Old Nova Scotia Girl Has Master's Papers

Nova Scotia has almost as many sea captains as Kentucky has colonels, with the difference that the Blue-nosed sailors have a better right to their titles because of experience, ability and valor. But one captain among them stands unique—unique because she is a woman.

Captain Mildred I. Wamboldt, 21-year-old native of Lunenburg, is probably the only female in Nova Scotia who not only owns, but holds master's papers and actually navigates her vessel. And the craft is no toy yacht. It is the 425 gross ton schooner E. P. Theriault.

"Why, I don't think I could live if I had to stay ashore," the pretty young sailor declared.

Born of a long line of sea-faring forebears, she boasts that she has been six months captain of the schooner for nearly nine years. Bred to the sea, she made many trips with her foster-father, Angus Pufferover, Stateside to Italy, formerly to Lunenburg. There she made a special study of navigation.

Now her schooner is registered in her name. As master, she signs the clearance papers, transacts all the business of the craft, and rules with a firm hand her crew of one Nova Scotian and eight natives of Barbados. Her foster-parent accompanies her on her voyages, but only as mate. She trusts the schooner to no one but herself.

Captain Mildred is no fair-weather sailor. Last February she sailed from Lunenburg with sail for New York, but when 250 miles from destination the craft was caught in a terrific gale. The vessel was forced to turn and run before the wind. Her sails were stripped from her and her gear damaged. By the time the hurricane had blown itself out, the E. P. Theriault had been blown within 150 miles of Barbados. The young captain put into the island, and sold her cargo there.

She makes Barbados from Shelburne in 10 days, and from Bridgetown in 17 and 22 days, on different voyages. She made a trip from Bridgetown to Lunenburg in 13 days, all of which was good time.

The E. P. Theriault, built on the Pundy shore, is now registered at Bridgetown, Barbados.

## Wore Large Shoes

Chief attractions of the state museum in Minnesota's state house at Jefferson City are a pair of shoes, size 22, once worn by Miss Ella Kewing. She was a native Missourian, who died several years ago, and was 8 feet 4 inches tall. She was supposed to be the "largest woman in the world" during her life.

W. N. T. 1933

## Buildings in Miniature

Young Man Kept Busy Creating Models For Architects

Houses of cardboard and plaster, of matches and skewers, of drafting board, of safety-razor blades and paper punches and old knives—that is the daily work of Al Allard, a young Minneapolis man.

Al Allard's interest in midsize buildings dates from that Lon Chaney movie, "The Phantom of the Opera." Taking a tip from the miniature sets which were an important part of the picture, this handy young man built his first model, patterned after one of the castles used in the film. By contrast with the intricacy of detail which he has since developed and achieved that first effort was rather simple and inept. But at least it was a start, the first of several scores of models that have sprung from his work table. Chartered by the manager of the theatre where Allard worked and exhibited in a department-store window as part of an exhibition, the little castle attracted much attention. It was brought to the attention of a Hollywood studio executive visiting Minneapolis. Critically the executive examined the little castle and promised to get in touch with Mr. Allard on his return to Hollywood. This he failed to do, but the miniature builder's enthusiasm and ambition had been fired.

Into the life of Mr. Allard burst a St. Paul architect burgeoning with a problem. "Listen," commanded the architect, "I'm trying to sell a committee on the design for a new church, but they can't get together. I think if I had a model to show them they would like the design. I'll give you three weeks to finish the job and you can name any price within reason."

His experience as a creator of these little houses, castles and cathedrals was not only shown to the way toward achieving distinction and the appearance of reality, but had also been an instructor in many of the fundamentals of architecture and development in his own credo of philosophy of this craft.—Progress.

## Victim Of Imagination

"Cancer-Phobia" Causes Man To Take His Own Life

Perfectly healthy for a man of his years, William E. Fox, of Ferry Road, Paddington, England, became so obsessed with the idea that he was suffering from cancer that he killed himself—a victim of pure imagination.

Holding an office, the Paddington clerk, Mr. Inglesby Odde, pointed out the obvious mistake he had made in people to imagine they had cancer, and commented: "This is a case of cancer-phobia."

The evidence made it clear that Dyes had committed suicide as a direct result of depression induced by thinking that he had cancer.

Medical testimony made it equally clear that the man had no disease whatsoever.

## Not In His Line

Paddy, who was eager to obtain work went to the employment exchange.

"Anything this morning?" he asked the clerk.

"Yes," said the clerk, after consulting his books, "there's a job at the Eagle Laundry. Do you want it?"

Paddy shifted uneasily from one foot to another.

"Well," he said, "it's like this. I really want work mighty hard, but the fact is I ain't never washed an eagle."

## Not Wanted In Canada

It has been pointed out that the average family on relief in Canada is much better off than a family of workers in Russia. This does not, of course, help to lessen discontent in this country or assuage the feelings of those who prefer work to relief, but it points the way that Bolshevism is no cure-all for the present conditions or one to be at all invited.

"Nature is an original artist," we read. That is why she is often accused to copy the pictures on flower seed packets.

China expects excellent crop yields this year.

## Selling More Art Treasures

Earl Of Egmout's Precious Silver Plate Going Into Auction Room

More treasures of the rancher Earl of Egmout are to be sold at Christie's in London. The old masters and other pictures inherited by the late Earl have already been dispersed, and now the massive silver plate is coming into the auction room.

It is only four years since Frederick Joseph Trevelyan Percival left his ranch in Alberta and went to England to settle at Avon Castle, Ringwood, Hants, as the tenth Earl of Egmout. The silver plate now to be sold contains a good deal of 18th century work, several of which were especially made for the second Earl.

The most important item is a rare James I. silver-gilt wine-cup, a heirloom for use in his chapel at Avon. The Baron Arden was a Lord of the Admiralty about the end of the eighteenth century, and was M.P. successively for Lancashire, Warwick, and Totnes.

A set of three George I. plates is another item of note. It was the property of the celebrated London silversmith, Paul Lamerie, 1725.

A German silver-gilt tankard has an inscription showing that it was presented to Lord Arden by Queen Charlotte, the consort of George III.

## Domino Offices For London

Headquarters Are All Together In One Building

The opening of the handsome new offices of the government of South Africa by the King was interesting as another development of the bunching together of the Dominions offices in one particular part of London, England.

The South Africa building occupies one of the most commanding sites in the capital of the Empire at the corner of Trafalgar Square and the Strand, looking down Whitehall and over the street to Charing Cross. Generations of Londoners and overseas visitors have the building which stood there before—Morley's Hotel. Right across from it on the opposite corner of the Square, is Canada House, the offices of the High Commissioner. Between these two points and on the south side of Trafalgar Square are the offices of the Canadian Pacific and the Canadian National Railways. A few yards further west up another street are the offices of the British Columbia government. There is also a Canadian bank hard by.

Going past along the Strand are the premises of the government of Rhodesia, the offices of the province of Ontario and most opposite the latter, the offices of the High Commissioner. So that the overseas visitor seeking his headquarters is right in the heart of London wherever he comes from.—St. Thomas Times-Journal.

The world's supply of copper at the 1929 rate of consumption will only last about fifty years, in the opinion of certain scientists.

By lighting and heating a bee-hive by electricity in Europe recently the production of honey was increased 17 pounds.

Little Things That Count Things that help one to succeed in life: Visit of your neighbor's hens to your garden; the hiding of your favorite teddy bear of a home by a vagrant dog; the early rising neighbor who plays a lively tune on his lawn mower just as you are getting off to your morning's sleep.

There is more kick in anticipation than in realization.

## Winnipeg Newspaper Union

By Ruth Rogers

TAK' OFF YOUR COAT: JUST AS YOU PLEASE!

It's smart as can be either way. As everyone knows Dame Fashion is very fond of capes for spring. And here's a daring model that is very versatile. Take off the cape and you have another dress. Dawn bow crinkly crepe silk carried out this fascinating model. A crepe silk prettied would be charming too.

Style No. 712 is designed in sizes 14, 16, 18, 20, 22, 24, 26 and 28 inches.

Size 16 requires 4 yards 39-inch wide, 3 yard 39-inch contrasting. Price of pattern 20 cents in stamps or coin (cash is preferred). Wrap coin carefully.

# Prince Of Wales Expresses Confidence In Canada's Ability To Emerge From Depression

## Very Easy To Obtain

Newspaper Claims Untraceable Poison Had Freely In England

Two drugs capable of killing a man without trace are on sale at large chemists throughout the country, says a London newspaper.

They are supplied without question to any person who demands them. One of them bears no "poison" mark on its bottle.

Neither of them can be detected after death.

Many poisonous substances are obtainable from all chemists, but two are remarkable for the ease with which they are bought, for the impossibility of tracing them once they have been administered, and for the fact that they produce symptoms similar to those due to natural diseases.

The pathologist of a famous London hospital, questioned by a newspaper representative about one of these substances, said "If ever I wished to commit murder, this is what I should choose."

It is a protein-like compound, in daily use for the treatment of a common disease. It is supplied as a liquid in bottles which bear no poison mark. A child can buy it anywhere.

And yet the injection of the contents of a two-shilling bottle induces coma followed by death in from four to six hours.

It is impossible to analyze, and it leaves no trace in the body after death.

A newspaper representative visited a chemist's shop near Oxford Street, and for two shillings he received a tube containing more than a fatal dose of the liquid.

The second deadly poison is a liquid made from the seeds of an Indian tree. The medical dose is one drop, and an overdose results in an exceedingly painful death.

Two grams are enough to produce fatal results.

It is, however, impossible to detect after death.

At the same shop, two grams of the poison were bought for 1s. 6d. For this it was necessary to sign a receipt, but no steps were taken to verify the name and address given, and it was not asked to what use the drug was to be put.

## Chemical Changes In Liquids

Scientists Find High Pitched Sounds Will Kill Bacteria

If the body could cry at a higher pitch it might help make his own milk more digestible.

A study of the effect of sounds in causing chemical changes in milk was reported to the American Association for the Advancement of Science by Dr. E. W. Fomon and L. A. Chambers of the University of Pennsylvania Medical School.

Scientists have recently learned that bacteria in milk, water, fruit juices and other liquids can be killed by "super sounds" of very high pitch.

Less than one-twentieth of the people in Britain now pay income taxes.

The Prince of Wales told 700 guests at a Dominion Day dinner he was confident of Canada's ability to emerge from the economic depression and proceed to a bright future.

Standing beside Prime Minister R. B. Bennett, of Canada, and addressing an audience including representatives of every phase of empire, it was the prince said, "I know Canada better than any other part of the empire. I am really quite ashamed to think a few years have elapsed since I have been to my ranch in Alberta; not that my residence at High River or any effort on my part could alter the price of cattle or vary the exchange."

"Canada," he continued, "is suffering with the rest of the world. I am proud of my association with her, and an confident, as her citizens are confident of her recuperative powers and bright future."

The Prince dealt briefly with the struggling world economic conference and last year's Ottawa conference which brought together representatives of all the empire nations.

"The hopes of the world," he said, "are fixed just now on the economic conference, but our mind naturally goes back to a year ago, the eve of the Ottawa conference."

"Quite apart from the discussions and agreement the Ottawa conference was a great national uniting force by the very nature of its composition to meet in Ottawa, but without any trace of that obstacle to progress, and that evil of present-day, individual antagonism."

"We all know," he said, "that the work of the economic conference would be best with very great difficulty, but we can be confident for the sake of the world."

"Not the least impressive feature of the world conference," he said, "is the participation in the discussion of various parts of the great British Commonwealth of nations."

"I am sure," he said, "that the work of the conference will be the great task of helping put the world on the road to economic and financial recovery."

## Where Men Excel

Better Than Women At Guessing What Children Like

Men are more adept at selecting amusements for children than are women, says Florence Hamberger, one of the two women professors at Johns Hopkins University. Men know better how to choose the right material to enter what is good for them, she contends.

Miss Hamberger bases her bold statement on the results of a consulting information for a volume in the art of decorating children's rooms. In this volume, women were asked to select subjects that appealed more to children than were women. The reason for men's ability along this line, she contends, comes from the fact that the time they spend with the children is largely in play. Women are occupied with the technical aspects of rearing children.

## Selling Big Japanese Coin

Largest Gold Coin In World Weighs Nearly Four Ounces

The Japanese Oban, the largest gold coin in the world, is to be sold in London, England.

Stamped with the words of the government mint, the Japanese Oban is a large oval piece of gold measuring five inches across, and weighs nearly four ounces.

The coin was signed in Japanese ink by the superintendent of the mint as a guarantee of its purity. The signature was considered the most important part of the coin, and it was rubbed off the plate ceased to be current money.

## Had Long Wait

When Peggy returned from her first day at school she was asked how she enjoyed it.

"I like it all right," said Peggy, "but I didn't get any present."

"What made you think that you would get a present, dear?"

"Teacher said, 'Sit there for the present,' and I sat there all morning and never got a present."

## Brazil's Surplus Coffee

Brazil this year will have the largest crop of coffee in history, millions more bags than the whole world uses. It looks as if that country will have to continue its coffee, having already burned more than 15,000,000 bags.

Here we see His Majesty King George leaving Victoria Station with King Faisal of Iraq on their way to Buckingham Palace where the Arabian monarch is to stay for a few days. King Faisal is acknowledging an enthusiastic reception by the people of London.

## W. N. U. 2002

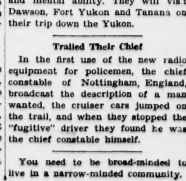

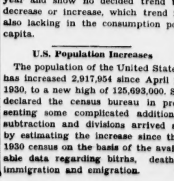

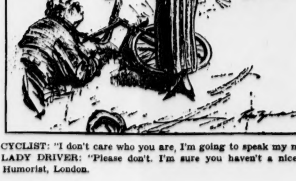

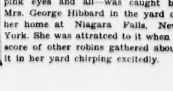

### Caught Albino Robin

An albino robin—white feathers, pink eyes and all—was caught by Mrs. George Hibbard in the yard of her home at Niagara Falls, New York. She was attracted to it when a score of other robins gathered about it in her yard chirping excitedly.

**CYCLIST:** "I don't care who you are, I'm going to speak my mind."  
**LADY DRIVER:** "Please don't. I'm sure you haven't a nice word to say."  
**Humorist, London.**

The population of the United States has increased 2,917,954 since April 1930, to a new high of 125,693,000, 8 declared the census bureau in presenting some complicated additions, subtraction and divisions arrived at by estimating the increase since the 1930 census on the basis of the available data regarding births, deaths, immigration and emigration.

You need to be broad-minded to live in a narrow-minded community.

## TOWN &amp; COUNTY Personalographs

A few good showers have visited various parts of the district during the past week, and the moisture, as usual, is welcome. Crops are holding out well, and heading rapidly. More general rains in the next ten days will ensure a pretty good harvest in the district.

Mr. and Mrs. R. J. Garrett and family left on Sunday for a couple of weeks' absence in the mountains.

A number of Carbonites are attending the Calgary automobile show.

Mrs. K. Clarke and Percy were Carbon visitors on Wednesday, from Inglewood.

A. P. McKillop spent Monday and Tuesday in Calgary attending a meeting of Carbon visitors on Wednesday, from Inglewood.

Mr. and Mrs. Bertrand and family of Calgary spent the week end visiting with Mrs. Bertrand's parents, Mr. and Mrs. C.W. Gray.

Mr. J. H. Olliphant returned on Sunday from a business trip to Saskatoon and reports poor crops in Southern Saskatchewan and Alberta.

Mr. and Mrs. T. J. Johnson and children, Betty, Perry and Tom, left on Monday morning to spend a two weeks holiday at Sylvan lake.

Miss Hay and Norman Poole left for Oils on Monday to take a short

course, these two being winners of this scholarship for highest points at the Carbon School Fair last fall.

Mr. and Mrs. Smith, and Mr. and Mrs. T. J. Ramsey left on Tuesday for a couple of days fishing trip to the West.

I. Gutmann was a visitor to Trochu on Sunday and reports that the crop on his farm east of town is only fair, and rain is needed.

Many who visited Grand Forks last Wednesday will be sorry to learn that Mr. A. G. Anderson's absence was due to the fact that he is ill in a Calgary hospital.

Len Hay reports a good rain west of Carbon on Monday night.

A double feature will be shown at the Carbon Theatre next Monday. Loreta Young and George Brent in "They Call It Sin," is one feature and the other is "The Vanishing Frontier."

Leonard Mancell is official demonstrator for the Sunshine combine at the exhibition grounds in Calgary this week.

Miss Phyllis James left on Sunday for her home in Kelowna, B.C.

Mr. and Mrs. Paul Schoeppe and family spent Monday in Calgary.

Mr. and Mrs. Harley Willson and family left on Wednesday for Saskatchewan and Manitoba points.

Jas. Smith spent the first part of the week in Calgary attending the stampee.

Grasshoppers are becoming numerous in some parts of this district although with advanced crops they will do little damage this summer. Unless every precaution is taken, however, we may have an outbreak next spring, so keep down the "hoppers."

Dave Clarke of Estler looked after the local A.P. elevator for a couple of days while Adam Bertsch was away.

The fishing party, comprising Messrs L.G. McQuade, Perry Edwards, Hugh Brown, Stan Torrance, Charlie Dunsmuir, Chas. Nash, R. J. Poirer and J.M. Macdonald, returned from Jasper on Tuesday evening, after a week's outing. They report a wonderful time.

## Southern News

Mr. and Mrs. B. Bertsch and children motored to Carbon on Saturday to visit with the W. Reedy family for a few days.

Mr. and Mrs. Fred Gittel of Crossfield were visiting with Mr. and Mrs. Otto Gittel for a few days last week.

Mr. and Mrs. J. Bliz, together with Mr. and Mrs. Chris Martin went to Banff on Friday to visit with relatives in that district.

Quite a number of the people in the district went into Calgary on Monday morning to see the stampee parade.

Mr. Sam Ohlhauser gave his new barn a coat of paint.

Mr. and Mrs. J.J. Nohr and Mr. and Mrs. B. Bertsch returned home on Sunday from a trip to Nakom.

Mr. and Mrs. Adam Bertsch and children, and Mrs. Otto Gittel motored to Turner Valley on Saturday and spent the week with Mr. and Mrs. G. Ohlhauser and Mr. and Mrs. R. Kary. They took in the stampee parade in Calgary on Monday morning and returned to Carbon that evening.

## Snicklefritz

Haven't I told you to use your napkin at the table? said mother to her young hopeful.

Well, I'm using it, Ma, protested Ronnie. I've got Fido tied to the leg of the table with it.

"Did you hear about Mr. Godus the bridge expert being the father of twins?"

"Yes, looks like his wife doubled his bid."

I know a man who has been married 20 years and he spends every evening of his life right at home."

"That's what I call love."

"The doctor calls it paralysis."

Father—Fancy, a big boy like you being afraid to sleep in the dark.

Five-year-old—It's all very well for you, you've got mother to look after you.

Oh yes, about the collar about to be changed. He asked, as a last request for a few trial swins.

Teacher—Susanne, is 'pants' singular or plural?

Susanne—I think they are singular where the waist and plural below.

I hear that you have a new attachment for your car?

Yes, from the shed!

Sir Thomas Horder, distinguished Physician of London, England, has stated:—

"The willing and happy worker will get more work done and do it better than the unwilling and discontented worker. It is in this direction that alcoholic beverages like beer make their great contribution to economic efficiency.

"Appetite is a function of the brain as much or even more than of the stomach, and its importance in the physiology of digestion and nutrition is very great. It is stimulated by a moderate use of such a beverage as beer, and at the same time zest is given to life which results in larger and richer activities."

## Let Us Do Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home printer is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT
